

Instructional Kit Inventory (as of September 2022)

Outdoor Education Center

***On the "Outdoor Education Center Online Use Request Form", teachers need to indicate which of these kits they want to have available on the day of their visit. The kit will be ready at the main location of use for each school group. Teachers are asked to be sure kit inventory (non-consumable) is returned back to the kit(s) ready for the next group to use ***

All of the smaller items are packed into a rolling kit with a handle for easy use and mobility. Items too large to be placed into a kit will be located beside the appropriate container.

Kits will be updated and expanded over time based on teacher recommendations. This list will be updated periodically to reflect the most up-to-date inventory.
